**Damiano Colnago is a Managing Partner at SEDA Experts, specializing in complex structured products. Mr. Colnago demonstrates intricate focus, knowledge, and expertise with regard to securities operations and reconciliation, custody and trustee services, collateral and fund administration, and funds operations.**

His expertise includes banking operation, collateralized debt obligations (CDOs), collateralized loan obligations (CLOs), fund of funds, OTC derivatives (including CDS, IRS, FX swaps and forward contracts), asset-backed securities (ABS), mortgage-backed securities (MBS), and syndicated loans.

Mr. Colnago gained his extensive industry experience holding senior positions in the United States and Europe, building and successfully maintaining relationships with various entities, such as asset managers, underwriters, paying agents, rating agencies, auditors, and custodians.

Mr. Colnago has provided his expertise as a consulting expert in over 50 high-stake disputes and consulting engagements, determining causation, liability and damages, in relation to alleged negligence, misrepresentation, and fraud for global financial institutions, top tier banks, regulators, large sovereign funds, hedge funds, and other institutions.

His business consulting experience also includes damage calculations related to financial instruments, misappropriation, and products mislabeling, defining lost profits, performing disgorgement analysis, and event study analysis. He has also a deep knowledge of business and investment valuation using different methodologies such as DCF, APV, comparable.

Mr. Colnago previously worked for Wilmington Trust, who acted as trustee, custodian, and collateral administrator in the structured finance industry. In his role, Mr. Colnago led his risk and compliance team, which was responsible to perform collateral administration and portfolio analysis for complex structured credit products for a total amount of approximately \$7.0 Billion.
